

PCIC³ - Getting Ready for IC³

The Easiest, Fastest, Most Effective Way to Prepare for IC³ Certification

In today's society, computer literacy isn't an option – it's mandatory. The best way to demonstrate basic computing and Internet literacy is through Certiport's IC³ Certification program, and the best way to prepare for IC³ certification is using Teknimedia's PCIC³ - Getting Ready for IC³.

4 The Internet and Computing Core Certification (IC³) program is the world's first validated, standards-based training and certification program for basic computing and Internet knowledge and skills. IC³ is your gateway to advancement in education, employment, or other certification programs.

4 PCIC³ – Getting Ready for IC³ is a comprehensive training program that will fully prepare students for the IC³ exams. Keeping with the tradition of Teknimedia's Computer Literacy Series, PCIC³ offers the finest in multimedia, interactive instruction to make learning easy, fast, and effective.

IC³ training is offered by a wide variety of educational organizations, including:

- Secondary & Alternative Schools
- Adult Education & Literacy Programs
- Staff Development & Teacher Training Programs
- Post-Secondary Schools
- Workforce Development Programs
- Community Technology Centers
- Correctional Facilities
- Employee Training Programs

Is your organization's mission to help teens and adults become more productive, successful members of today's technology-oriented society? If so, you should provide IC³ training to prepare your students for a validated, standards-based certification program that proves they have the skills it takes!

For a 30-day free trial of PCIC³, please go to www.teknimedia.com or call 1-800-366-4614.

About IC³

Certiport Solutions, LLC offers IC³ certification to certify individuals in broad-based computing and Internet knowledge and skills.

IC³ certification requires passing three exams:

- IC³ - Computer Fundamentals
- IC³ - Key Applications
- IC³ - Living Online

IC³ exams are offered globally at Certiport Testing Centers. In addition to IC³, Certiport Centers can offer Microsoft® Office Specialist and World Organization of Webmasters (WOW) exams.

Certiport is the leading provider of global, performance-based certification programs and services designed to enable individual success and advancement through certification. It is also the exclusive administrator of the Microsoft® Office Specialist program worldwide, responsible for the development, marketing, and administration of certification tests for the Microsoft Office suite, as well as World Organization of Webmasters (WOW) exams.

About PCIC³

PCIC³ consists of self-paced multimedia lessons, interactive exercises, quizzes, and reading supplements. PCIC³ courses are thoroughly reviewed by a specialized third-party reviewer selected by Certiport to certify they cover 100 percent of the IC³ exam objectives.

Teknimedia uses rigorous standards to ensure PCIC³ instruction is easily understood and highly retained by the learner. Specifically designed for those who are new to computers, PCIC³ does not assume any prior knowledge of the topics it covers. The following features make PCIC³ the ideal training tool for IC³ preparation:

- Clear, step-by-step voice narration makes lessons easy to understand.
- High-quality graphics and animation keep learners interested.
- Interactive exercises let learners practice, hands-on, the skills they have learned.
- Pre/Post assessment and quizzes measure learners' knowledge and progress.
- Adjustable playback speed allows learners to go through lessons at their desired pace.
- Optional display of the narration text reinforces instruction and makes courses usable by the hearing impaired.
- Frequently Asked Questions complement the instruction in each lesson.
- Comprehensive Index allows easy access to specific course topics.
- Online Operational Guide provides multimedia help information.
- Teacher's Guides assist the instructor in class preparation.

PCIC³ is delivered in a variety of ways to provide flexibility and suit your training environment. Delivery options include:

- Internet – PCIC³ can be accessed from any computer connected to the Internet.
- Network – PCIC³ can be installed on a file server and accessed from any computer on the network.
- Standalone Computer – PCIC³ can be installed and used on a standalone computer and accessed by multiple students on that computer.

All delivery options include learning management software that lets instructors track student activity and progress.
