

## **CLS Fact Sheet K-12 Schools**

### **Who uses CLS courses in schools?**

CLS courses are used for teaching computer and Internet skills in a variety of middle/high school classes and programs, including:

- “Introduction to Computers” and “Computer Literacy” Classes
- Vocational and Technical Education
- Business Education
- Alternative Education
- Special Education
- ESL Programs
- Staff Development

### **How are CLS courses used in schools?**

CLS courses are typically used as primary or supplementary curriculum materials in classroom and independent study environments. Internet delivery of CLS courses even allows teachers and students to improve their computer skills from home or other remote locations.

### **Have CLS courses been correlated to any published technology standards?**

CLS courses have been correlated to a number of national and state technology standards. Here are just a few examples:

National Educational Technology Standards (NETS):

- Performance Indicators for Technology-Literate Students in Grades 6-8
- Performance Indicators for Technology-Literate Students in Grades 9-12
- Performance Indicators for Teachers

Virginia Standards of Learning:

- Grade 5 Computer/Technology Standards
- Grade 8 Computer/Technology Standards
- Virginia Technology Standards for Instructional Personnel

Please visit our web site at [www.teknimedia.com](http://www.teknimedia.com) to see details of these and other correlations currently available. If your state or local technology standards aren't included, let us know and we'll be glad to create a curriculum correlation for your review.

## What do others have to say about CLS?

Hundreds of schools, adult education programs, literacy programs and other training organizations are using CLS to teach computer skills to their students and staff. Here's what just a few of our education customers have to say about using CLS:

"We use CLS courses with the students in our introductory computer course. These are the best computer literacy courses we've seen!"

*John Chadwick, Director  
Prince William Regional Technology Academy  
Manassas, Virginia*

"The Teknimedia programs are excellent! We use them primarily in our introductory technology classes to assist us in addressing the Technology Standards for Instructional Personnel. Our teachers love them because they can work at their own pace after the classes are over. They enjoy working with the CD-ROM's in groups and with their students."

*Erma Curtis-Evans, Technology Supervisor  
Portsmouth Public Schools  
Portsmouth, Virginia*
